SPECIAL: ADVANCES IN PLASTICS AND RUBBER

Despite frequent criticism at present, plastics are still finding use in ever new areas due to their good material properties. In extensive technical articles, experts reveal which areas these are and which materials are particularly in demand.

FURTHER TOPICS:

Injection Molding:

LSR Optics – No Chance for Dust and Dirt

Compounding:

High Mixing Efficiency and Good Scalability in the Co-Kneader

Electrical Vehicles:

Successfully Modifying Materials and Production Processes

Publication Date: **October 2020**
